***Election/Restrictions***

Newly submitted claims 22 and 23 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: These claims recite a method of operating a blind. Previously, only article claims to the blind have been recited.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim\*\*\* withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Claim Rejections - 35 USC § 102***

Claims 24-27 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Chou.

Chou discloses several embodiments. For example, see Figs. 22 and 23 or Fig. 30. Two master carriers are recited which are moved by operating devices 41. The passive slats at the right end of Fig. 23 are between these two master carriers.

***Claim Rejections - 35 USC § 103***

Claims 1,2,11 and 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Toti '017.

Toti discloses in Fig. 10 a pleated shade that has operating devices 41 at each end which can be used to move the shade to either end of the headrail. What is not shown are the louvers. However, elsewhere in Toti, "conventional" vertical louvers,

which include tilting mechanisms, are used and it would have been obvious to merely substitute the louvers for the pleated shade in Fig. 10.

***Allowable Subject Matter***

Claims 3,6,7,10 and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.
